INDEX VOLUME 32 1986

A

Ackroyd, B.: Arabsat communications system 540
Ada goes into service by R. Pierce 433
Adams, R.W.: Engineers' status (letter) 789
Advanced manufacturing technology for large turbine generators by R. Hawley 43
Airborne fighter radars, technology evolution in by M. Ottewell 473
Air-traffic-control radar, computer techniques for by R. Lewsey 309
Alarming 'approval' (letter) 568
Amor, C.: Design consultants: pro or con? 395
Anderson, R.C.: Aspects of electronic warfare 381
Arabsat (letter) 639
Arabsat communications system by B. Ackroyd 540
Are we still engineers? (letters) 716, 788
Are we still only engineers? (letters) 431, 567
Arnot, F.J.: Banging our own drum (letter) 267
Ashman, J.: Hierarchical interconnection technology 671
Asker, P., Regner, L., and Hedberg, S.E.: A new concept for overhead lines 226
Aspden, H.: Biochips (letter) 75
Aspden, H.: Electromagnetic 'quack' remedies (letter) 75
Aspden, H.: In defence of the ether (letter) 717
Aspden, H.: Movement of ions (letter) 202
Aspden, H.: Predicting earthquakes (letter) 344
Atherton, T.: A history of Ohm's Law (467)
Atling, D., and Wellman, P.: A new home for Lloyd's 819
Ayrton, Hertha — the first lady of the IEE by G. Moore 583

B

Baden-Fuller, A.J.: Optimisation of circuits by random addition of new components 591
Baker, W.F., and Bindon, F.J.L.: Faraday lecture (letter) 790
Banging our own drum (letters) 266
Barlow, R.: Ferroresonant line conditioner 445
Baroness Platt of Writtle: Women's place (is) in industry 23
Barnes, W.G.: Tracking animals by satellite (letter) 508
Barwell, F.T.: New species takes root (letter) 509
Bass, J.C.: New factors in research today 31
Beckett, Sir Terence, C.B.E.: Industry Year 1986 — the role of the employer 13
Bennell, F.: Ohm's law (letter) 568
Bergen, S.A.: Design and development resources 539
Bertenshaw, N.W.: Learning from mistakes (letter) 431
Bindon, F.J.L., and Baker, W.F. (see Baker) 790
Bindon, F.J.L., and Maitland, Lady Olga: What type of reactor? (letter) 75
Binns, D.F.: In place of efficiency 645
Biochips (letter) 75
Bonfield, P.L.: The UK computer industry. Managing change 55
Bourne, R.: Decline in trainees (letter) 432
British Electronics Week. Exhibition Preview 325
Broadbent, S.: Plasma displays for defence applications 392
Broadcasting technology, developments in, and their effect on TV receiver design by P.L. Mothersole 791
Brown, M.: Interconnection as an electrical/electronic interface 677
Bryce, A.B.: Engineers and pay (letter) 790
Bungay, E.: Protection of MV underground power cables 221
Burren, J.W., Griffiths, J.W.R., Hinchley, A.J., Needham, R.M., and Clark, P.F. (see Clark) 665

C

Cables, MV underground power, protection of by E. Bungay 221
Caldecote, F.Eng., Viscount.: Finance for industry 39
Camp, R.: Early lamp filaments — following the thread (letter) 268
Cancer cures (letter) 75
Capacitors for power supplies by J.D. Dale-Lace 229
Car industry, the UK. Meeting the challenge head-on by H. Musgrove 47
Cato, R.: Electrical services at Terminal 4, Heathrow. From kilovolts to microamperes 312
Challans, B.W.S.: Standards and compliance (letter) 789
CIE on the road by Tony Prins 636
Clark, P.F., Burren, J.W., Griffiths, J.W.R., Hinchley, A.J., and Needham, R.M.: Unison — communications research for office equipment 665
Clinch, C.E.E.: Help wanted (letter) 637
Clyne, L.: LAN/WAN interface 669
Coleman, R.F.: Are we still only engineers? (letter) 431
Collie, A.A.: Walking machines (letter) 75
Component manufacture, automated — some major requirements by B. Mitchell 595
Conference comments (letter) 716
Conferences (letter) 567
Constable, G.E.P.: The role of good design in industry 35
Consumer electronic products, new. Ingredients of success by B.A. Horlock 289
Cook, B.M.: Using ISIS to support the teaching of VLSI design 527
Corney, L.A.: Learning from mistakes (letter) 716
Coxon, G.: Readers' letters (letter) 637
Crosstalk 68, 200, 232, 265, 342, 429, 440, 512, 641, 786
Cusack, R.: Earthquakes, ether and electromagnetic waves (letter) 569
Cusack, R.: Engineers and pay (letter) 567

D

Dairy industry. Full of natural goodness by G. Moore 62
Dale, R.: Product line rejuvenation by the use of contract R&D 394
Dale-Lace, J.D.: Capacitors for power supplies 229
Daniels, B.K.: Software standards (letter) 568
Dataflow at MIT by R. Dettmer 570
Davy, G.V.: Payments for abstracts (letter) 202
Decline in trainees (letter) 432
Denmark's alternative energy programme. Seeing which way the wind blows by P. Logan 529
Derksema, B., Young, N., Kelly, R., and Kitson, D.J.M. (see Kelly) 804
Design and development resources by S.A. Bergen 539
Design consultants: pro or con? by C. Amor 395
Design, the role of good, in industry by G.E.P. Constable 35
Dettmer, R.: Brighter prospects for wafer-scale integration 283
Dettmer, R.: Dataflow at MIT 570
Dettmer, R.: Encouraging industrial innovation. The view from Victoria Street 15
Dettmer, R.: Flagship. A fifth-generation machine 203
Dettmer, R.: JOERS — lighting a path for collaborative research 807
Dettmer, R.: Pascal and Modula-2 435
Dettmer, R.: Seiberco — starting up in Boston 506
Dettmer, R.: The artful transputer 578
Dettmer, R.: Viper microprocessor 723
Dettmer, R.: VLSI, a language for —, ELLA 517
Developing new drives (letter) 789
Diary of a nobody? by B.C. Ransley (letter) 344
Diary of Peter Understone, aged 45¾ 316
Diary of whom? (letter) 509
Digital two-channel sound with terrestrial television by A.H. Jones 801
Display module design using miniature circuit technology by M. Kent 277
Displays, developments in large-area by I. Holt 279
Dixon, H.: Engineering profession (letter) 510
DMC/PC '86 Exhibition preview 753
Doe, E.N.: Formel transformers (letter) 508
Domesday Project, technical aspects of the by R. Kelly, D.J.M. Kitson, B. Derksema and N. Young 804
Down the drain (letter) 790
Dunford, C.: Exporting to the Middle East 543

E

Early lamp filaments — following the thread (letter) 268
Earthquakes, ether and electromagnetic waves (letter) 569
Education and industry. A battle yet to be won by Rev. Canon George Tolley 27
Efficiency, in place of by D.F. Binns 645
Electrex '86 preview 81
Electrical equipment in the latest motorway tunnel systems in the UK by E. Hanson and J.C. Lane 815
Electrical services at Terminal 4, Heathrow. From kilovolts to microamperes by R. Cato 312
Electromagnetic 'quack' remedies (letter) 75
Electromagnetic waves and the ether (letter) 789
Electronic warfare, aspects of by R.C. Anderson 381
ELLA — a language for VLSI by R. Dettmer 517
Engineering education in Japan (letter) 788
Engineering profession (letters) 510
Engineers and pay (letters) 432, 567, 637, 790
Engineers' status (letter) 789
Esprit, talking about 377
Ewers, R.A.: UK energy policy (letter) 344

F

Faraday lecture (letters) 569, 716, 790
Ferroresonant line conditioner by R. Barlow 445
Finance for industry by Viscount Caldecote 39
Flagship. A fifth-generation machine by R. Dettmer 203
Formal specification languages by J. Parker and G. Titterington 441
Formel transformers (letter) 508
Forte, Lord.: Hotels and catering. The ten golden rules 65
Foxell, C.A.P.: Telecommunications. The lifeblood of industry 51
Fox, J., and Powter, J. (see Powter) 797
French, J.: Tracking animals by satellite 373

G

Garrard, C.J.O.: Faraday lecture (letter) 569
Generator set standard, international, nears completion by B. Hesketh 460
Geothermal energy. A natural resource by Glenis Moore 217
Gibson, P.: Training as a strategic management tool 209
Glass-fibre flows (letter) 76
Gleadow, R.E.: Engineers and pay (letter) 567
Glick, D.: Engineering education in Japan 788
Gowdy, A.D.: Faraday lecture (letter) 790
Griffin, J.: Conferences (letter) 567
Griffith, D.C., and Wallace, B.P.: Development trends in medium and large UPSs 455
Griffiths, J.W.R., Hinchley, A.J., Needham, R.M., Clark, P.F., and Burren, J.W. (see Clark) 665
Guy, C.: IT conversion courses. Answering the skills shortage? 215

H

Halvorsen, D.L.: Properties and applications of piezo film transducers 744
Hanson, E., and Lane, J.C.: Electrical equipment in the latest motorway tunnel systems in the UK 815
Herker, K.: Engineering profession (letter) 510
Harrison, T.: Recent developments in dipping sonar 390
Hawley, R.: Advanced manufacturing technology for large turbine generators 43
Hedberg, S.E., Asker, P., and Regner, L.: (see Asker) 226
Helping small firms grow by D. Irwin 751
Help wanted (letter) 637
Hendry, M.: Applying strategic planning at the national level 353
Heisig, M.: Displays, IC interface for electronic: the way forward 273
Hesketh, B.: International generator set standard nears completion 460
Hinchley, A.J., Needham, R.M., Clark, P.F., Burren, J.W., and Griffiths, J.W.R. (see Clark) 665
Hodgson, W.S.: Motorway communications systems in England — introducing a second generation 300
Hollingworth, A., and Michel, A. (see Michel) 608
Holmes, R.F., and Stannett, A.B.: Traffic monitoring and control in motorway tunnels 305
Holt, I.: Developments in large-area displays 279
Horlock, B.A.: New consumer electronic products. Ingredients of success 289
Hotels and catering. The ten golden rules by Lord Forte 65
Houslip, N.J.: Memory backup (letter) 267
Hubble, J.: Wave power — Norway's latest export 533
HV distribution systems, a rotating arc fuse for by M.C. Oakes 605

I

Ichiban — the Japanese approach to engineering education by J. Lorriman 573
IC interface for electronic displays: the way forward by M. Heisig 273
In defence of the ether (letter) 717
Induction motors, linear — a new species takes root by E. Laithwaite 355
Industrial News 69, 109, 189, 257, 335, 421, 497, 561, 628, 708, 774
Industry Year 1986 — the Government's view by Peter Morrison, MP 11
Industry Year 1986 — the role of the employer by Sir Terence Beckett, C.B.E. 13
Industry Year 1986 — the role of the unions by N. Willis 12
Innovation, encouraging industrial. The view from Victoria Street by R. Dettmer 15
In retrospect 76, 117, 201, 268, 343, 432, 512, 566, 641, 717, 787
Insulation co-ordination for the future by R.C. Mierendorf 740
Interconnection as an electrical/electronic interface by M. Brown 677
Interconnection for EMC by B. Leary 674
Interconnection technology, hierarchical by J. Ashman 671
Irwin, D.: Helping small firms grow 751
IT conversion courses. Answering the skills shortage? by C. Guy 215

J

Jefferis, A.: Commercial satellite communications — the next 20 years 657
Jeffery, D.J., and Russam, K. (see Russam) 295
JET nuclear fusion project by J.H.C. Maple 731
JOERS — lighting a path for collaborative research by R. Dettmer 807
Jones, A.H.: Digital two-channel sound with terrestrial television 801
Jones, D.: Taking Britain to the world. The role of consulting engineers in the British export market 59
Jones, P.: Public-sector consultancies (letter) 202

K

Keeping ahead (letter) 431
Kelly, R., Kitson, D.J.M., Derksema, B., and Young, N.: Technical aspects of the Domesday Project 804
Kent, M.: Display module design using miniature circuit technology 277
Kerr, A.N.D.: Keeping ahead (letter) 431
Kitson, D.J.M., Derksema, B., Young, N., and Kelly, R. (see Kelly) 804
Knight, A.V.: Literacy and computing for the blind (letter) 639

L

Laithwaite, E.: Linear induction motors — a new species takes root 355
Laithwaite, E.R.: New species takes root (letter) 569
Lane, J.C., and Hanson, E. (see Hanson) 815
LAN/WAN interface by L. Clyne 669
Learning from mistakes (letters) 202, 431, 716
Leary, B.: Interconnection for EMC 674
Leicester, W.L.: Alarming 'approval' (letter) 568
Lewis, M.J.: Learning from mistakes (letter) 202
Lewsey, R.: Computer techniques for air-traffic-control radar 309
Literacy and computing for the blind by G. Moore 513
Literacy and computing for the blind (letter) 639
Little, J.M.: Down the drain (letter) 790

Lloyd's, a new home for by D. Atling and P. Wellman 819
Logan, P.: Being open at Sellafield 728
Logan, P.: Denmark's alternative energy programme. Seeing which way the wind blows 529
Lorriman, J.: Ichiban — the Japanese approach to engineering education 573

M

Maitland, Lady Olga, and Bindon, F.J.L.: What type of reactor? (letter) 75
Manufacturing Automation Protocol. Mapping the factory of the future by G. Moore 269
Maple, J.H.C.: JET nuclear fusion project 731
MAP/TOP demo, largest public by G. Moore 784
Marshall, R.S.: Engineers and pay (letter) 432
Materials technology, advanced — the linchpin of electronics by C. Sharpe 747
Maughfling, G.: Faraday Lecture (letter) 716
Maxwell-Irving, A.M.T.: Conference comments (letter) 716
McGee, D.: Mixed-mode simulation on a PC-based workstation 523
McGeehin, P.: Optical sensors — developing the technology and the market 535
Memory backup (letter) 267
Michel, A., and Hollingworth, G.: Ring main distribution — witnessing the evolutionary process 608
Middle East, exporting to the by C. Dunford 543
Middleton, B.K.: Recording research (letter) 267
Mierendorf, R.C.: Insulation co-ordination for the future 740
Mitchell, B.: Automated component manufacture — some major requirements 595
Mitchell, B.G.: Cancer cures (letter) 75
Modems, the changing face of by Glenis Moore 651
Montgomery, A.P.: Engineers and pay (letter) 567
Moore, G.: Dairy industry. Full of natural goodness 62
Moore, G.: Geothermal energy. A natural resource 217
Moore, G.: Hertha Ayrton — first lady of the IEE 583
Moore, G.: Largest public MAP/TOP demo 784
Moore, G.: Literacy and computing for the blind 513
Moore, G.: Looking down on Nature 369
Moore, G.: Manufacturing Automation Protocol. Mapping the factory of the future 269
Moore, G.: The changing face of modems 651
Moore, G.: Time for tide? 823
Moore, G.: UPSs for the small business 448
Moore, J.: Upgrading of nuclear reactor display systems 735
Moralee, D.: Media and industrial reality 19
Morrison, Peter, M.P.: Industry Year 1986 — the Government's view 11
Mothersole, P.L.: Developments in broadcasting technology and their effect on TV receiver design 791
Motorway communications systems in England — introducing a second generation by W.S. Hodgson 300
Movement of ions (letter) 202
Musgrove, H.: The UK car industry. Meeting the challenge head-on 47

N

Nature, looking down on by Glenis Moore 369
Needham, R.M., Clark, P.F., Burren, J.W., Griffiths, J.W.R., and Hinchley, A.J. (see Clark) 665
Newell, A.F.: Speech communication technology — lessons from the disabled 661
New Products 87, 173, 235, 320, 399, 479, 547, 611, 683, 755, 831
New species takes root (letters) 509, 569
No laughing matter (letter) 431
Nuclear reactor display systems, upgrading of by J. Moore 735

O

Oakes, M.C.: A rotating arc fuse for HV distribution systems 605
Ogilvy, H.H.: Are we still engineers? (letter) 788
Ohm's Law, a history of by T. Atherton 467
Ohm's Law (letters) 568, 789
Only engineers? (letter) 637
Optical-fibre sensors — new opportunities for chemical sensing by A.M. Smith 811
Optical sensors — developing the technology and the market by P. McGeehin 535
Optimisation of circuits by random addition of new components by A.J. Baden Fuller 591
Ottewell, M.: Technology evolution in airborne fighter radars 473
Overhead lines, a new concept for by P. Asker, L. Regner, and S.E. Hedberg 226
Oxygen depletion (letter) 508

P

Parker, J., and Titterington, G.: Formal specification languages 441
Parrish, W.: Power semiconductors for surface mounting 598
Parry, J.: Developments of SF_6 switchgear incorporating rotating-arch circuit breakers 602
Particle hunt is on, the great by T. Prins 74
Pascal and Modula-2 by R. Dettmer 435
Payments for abstracts (letter) 202
Peter Understone lives, OK? (letter) 568
PC-based workstation, mixed-mode simulation on a by D. McGee 523
Pierce, R.: Ada goes into service 433
Piezo film transducers, properties and applications of by D.L. Halvorsen 744
Planning, applying strategic, at the national level by M. Hendry 353
Plasma displays for defence applications by S. Broadbent 392
Pope, L.A.: Banging our own drum (letter) 266
Potier, O.N.R.: Arabsat (letter) 639
Powter, J., and Fox, J.: Westminster cable TV system 797
Predicting earthquakes (letter) 344
Prins, T.: CIE on the road 635
Prins, T.: The great particle hunt is on 74
Product line rejuvenation by the use of contract R&D by R. Dale 394
Psimopoulos, M., and Theocharis, T.: Electromagnetic waves and the ether (letter) 789
Public-sector consultancies (letter) 202

R

Ransley, B.C.: Diary of a nobody? (letter) 344
Read, P.G.: Video discs live, OK (letter) 511
Readers' letters (letter) 637
Recording research (letter) 266
Regner, L., Hedberg, S.E., and Asker, P.: (see Asker) 226
Research, development and decline: Britain's industrial enigma by A. Rudge 347
Research today, new factors in by J.C. Bass 31
Richardson, B.: Transformer core losses 365
Ridout, J.: Selecting the right generating set for use with UPSs 463
Ring main distribution — witnessing the evolutionary process by A. Michel and G. Hollingworth 608
Robertson, J.W.: Faraday Lecture (letter) 716
Rowe, J.H.: Oxygen depletion (letter) 508
Rowe, J.H.: What type of reactor? (letter) 202
Rudge, A.: Research, development and decline: Britain's industrial enigma 347
Russam, K., and Jeffery, D.J.: Route guidance and driver information systems — an overview 295
Russell, B.M.: Diary of whom? (letter) 509

S

Sanders, K.J.: The totally non-flammable transformer 361
Satellite communications, commercial, — the next 20 years by A. Jefferis 657
Satellite, tracking animals by by J. French 373
Seed, J.J.: Developments in distribution switchgear. Do we still have a philosophy? 600
Seiberco — starting up in Boston by R. Dettmer 506
Sellafield, being open at by P. Logan 728
Sharpe, C.: Advanced materials technology — the linchpin of electronics 747
Shaw, B.D.: Engineers and pay (letter) 637
Shearwood, P.J.: Developing new drives (letters) 789
Shelters for sensitive electronic equipment by S. Turner 387
Shepherd, G.: Waste not — want not? 719
Siddall, A.A.: Standards and compliance (letter) 639
Skills shortage, answering the? IT conversion courses by C. Guy 215
Sloan, C.E.E.: Yes, we are engineers! (letter) 788
Smedley, S.A.: No laughing matter (letter) 431
Smith, A.M.: Optical-fibre sensors — new opportunities for chemical sensing 811
Software standards (letter) 568
Sonar, dipping, recent developments in by T. Harrison 390
Speech communication technology — lessons from the disabled by A.F. Newell 661
Stafford, R.: Conference comments (letter) 717
Standards and compliance (letters) 639, 789
Stannett, A.B., and Holmes, R.F. (see Holmes) 305
Strashun, L.: Interactive training using operative equipment 211
Surface mounting, power semiconductors for by W. Parrish 598
Sutherland, P.: Are we still engineers (letter) 716
Switchgear, developments in distribution. Do we still have a philosophy? by J.J. Seed 600
Switchgear, SF_6, development of, incorporating rotating-arc circuit breakers by J. Parry 602

T

Taking Britain to the world. The role of consulting engineers in the British export market by D. Jones 59
Talking about Esprit 377
Taylor, A.: Only engineers? (letter) 637
Technical evolution in airborne fighter radars (letter) 567
Telecommunications. The lifeblood of industry by C.A.P. Foxell 51
The UK computer industry. Managing change by P.L. Bonfield 55
Theocharis, T., and Psimopoulos, M. (see Psimopoulos, M.) (letter) 789
Thompson, J.D.: Glass-fibre flows (letter) 76
Time for tide? by G. Moore 823
Titterington, G., and Parker, J. (see Parker) 441
Tolley, Rev. Canon George: Education and industry. A battle yet to be won 27
Tracking animals by satellite (letter) 508
Traffic monitoring and control in motorway tunnels by R.F. Holmes and A.B. Stannett 305
Training as a strategic management tool by P. Gibson 209
Training, interactive, using operative equipment by L. Strashun 211
Transducers for automotive applications by M.H. Westbrook 586
Transformer core losses by B. Richardson 365
Transformer, the totally non-flammable by K.J. Sanders 361
Transputer, the artful by R. Dettmer 578
Turner, S.: Shelters for sensitive electronic equipment 387

U

UK energy policy (letter) 344
Understone, P.: Peter Understone lives, OK? (letter) 568
Unison — communications research for office applications by P.F. Clark, J.W. Burren, J.W.R. Griffiths, A.J. Hinchley and R.M. Needham 665
UPSs for the small business by G. Moore 448
UPSs, medium and large, development trends in by D.C. Griffith and B.P. Wallace 455
UPSs, selecting the right generating set for use with by J. Ridout 463

V

Video discs live, OK (letter) 511
Viper microprocessor by R. Dettmer 723
VLSI, a language for —, ELLA by R. Dettmer 517
VLSI design, using ISIS to support the teaching of by B.M. Cook 527

W

Wafer-scale integration, brighter prospects for by R. Dettmer 283
Walking machines (letter) 75
Wallace, B.P., and Griffith, D.C. (see Griffith) 455
Waste not — want not? by G. Shepherd 719
Wave power — Norway's latest export by J. Hubble 533
Wellman, P., and Atling, D. (see Atling) 819
Wells, R.: Ohm's law (letter) 789
Westbrook, M.H.: Transducers for automotive applications 586
Westminster cable TV system by J. Powter and J. Fox 797
What type of reactor? (letters) 75, 202
White, I.G.: Technical evolution in airborne fighter radars (letter) 567
Willis, N.: Industry Year 1986 — the role of the unions 12
Wood, J.: Are we still engineers? (letter) 567
Woman's place (is) in industry by Baroness Platt of Writtle 23

Y

Yes, we are engineers! (letter) 788
Young, A.: Engineering profession (letter) 511
Young, N., Kelly, R., Kitson, D.J.M., and Derksema, B. (see Kelly) 804

Books received

Books received 78, 234, 397, 476, 546, 681, 830

Book reviews

Amoroso, S., and Ingargiola, G.: Ada — an introduction to program design and coding 829
